

Site Design

Website creation: \$1500 - \$3000. This includes layout, creation, design, and graphics (depending on the scope of the project). Let me know what you are wanting and I will submit a proposal. Or set up a meeting to discuss your vision.

Maintenance: \$75 per hour. With a minimum of 1 hour. This includes: Updating content (it is important to keep this current). Adding content as needed e.g.: downloadable mp3's, video files, pdf documents and forms, and monthly newsletters. In addition it also include statistical feedback about your site: "who's been visiting", "how they found your site", "how long and what they looked at" and much more usefull information that can be used to strengthen your site.

You can check out the sites I have done thus far by clicking on my portfolio. On top of all that I will also notify the major search engines of your site and optimize your site information to be search engine friendly.
